WHEREAS, the parties to this IGA desire to cooperate in funding and making available a County-wide mosquito control and education program; and

WHEREAS, a coordinated effort by the County and the municipalities within the County will permit a more effective mosquito control and education program and specifically will aid control of the mosquito species responsible for the spread of West Nile Virus.

NOW, THEREFORE, in mutual consideration of the premises and the covenants and promises set forth below, the parties to this IGA agree as follows:

1. **PROJECT**. The Project that is the subject of this IGA is a comprehensive integrated larval and adult mosquito control program, on public and private property throughout Garfield County that will be designed specifically for Garfield County and the municipalities by an independent contractor. Surveillance will include the use of GIS mapping technology. The Project will include the use of chemical pesticides for adult and larval mosquito control in a manner safe to citizens, the environment and pets. Chemical applications will only be done when the elected officials of each pertinent jurisdiction, or their designated staff member, determine that mosquito levels have reached a threshold that poses a public health risk. Each jurisdiction is responsible for working with the Contractor to ensure that their jurisdiction is in compliance with the Federal Clean Water Act and the Colorado Discharge Permit System as administered by the Colorado Department of Public Health and Environment. The independent contractor will also provide community outreach and public education.
