

WATER RESTRICTIONS LIFTED

AUGUST 2, 2021

REGULAR WATERING MAY COMMENCE

After careful consideration, and the rain we have received over the last week, the Town of Parachute has made the decision to lift the watering restrictions put in place under ordinance number 795-2021. We appreciate all of those who made an effort in helping preserve the water in Parachute Creek by adhering to the water restrictions. If conditions should change, water restrictions may be reinstated. Please continue to water responsibly.
